

Congratulations to Derrick Murry, 40 Under 40 Recipient

November 16, 2009—North Medical, P.C. (NMPC) congratulates Derrick Murry, MPH, our chief operating officer who was honored at this year's 40 Under 40 luncheon. At the luncheon, 40 individuals were recognized as the best and the brightest of the area's young professionals. Derrick, 39, was among the proud recipients of this prestigious award, guided there by the principles: Word hard, don't take anyone or anything for granted, and live life to the fullest.

As NMPC's COO, Derrick is responsible for the day-to-day operations of North Medical P.C., managing all employees, supporting the delivery of quality, accessible health care, and business development. He is a PhD. candidate in public health and holds a masters degree in public health. Derrick lives in the Syracuse area with his wife and two daughters because they appreciate the excellent quality of life that exists in Central New York—something he was not able to find anywhere else he worked. In the next 10 years, Derrick plans to continue utilizing his public health expertise in the community as a health care administrator and educator.
